TISSUE MACHINE TESSUTI A MACCHINA

hair bands sewn to be applied on the head, according to the desired effect, with needle and thread specific.

It is a technique semipermanent, through which the strands are assembled in a solid manner, using advanced equipment. Prevents hair loss during combing.

The length of the strands ranging from 30 to 95 cm.

Available in different structures :

- smooth ;
- corrugated ;
- natural curls ;
- curly permed.
