WET OR DRY PLATE 30 MM

Piastra WET or DRY 30 mm

BHS Wet or Dry super straitt plate ironing and dry your hair at the same time. We were the first four years ago in Italy to deliver the professional plate that dried and ironed at the same time (not our production and brand) success is was great, but unfortunately the article had some defections striking techniques after a short time. Now after several researches and tests, and especially behind the pressing demand of our distributors, we made directly with the brand BHS WET or DRY super straitt, eliminating the previous defections such as: plates, electronic board, swivel cord and the body. Made of Ceramic / Tourmaline plates with overhead and Analog temperature controller that allows its use in the most extreme.
