COLORMELANGE
ammonia - free gel- staining

With extracts of sweet almond oil.

The special formulation allows the color service to oxidation with maximum coverage of white hair and remarkably resilient, or tone-on- tone coloration. In both cases, the colors are always beautiful and natural.

method of use : service color : mix the contents of the vial (60 ml) with 1 part of Active Mask A (60 ml), apply the product to wet or dry hair in the traditional way & sbquo, leave on for about 30 minutes and rinse thoroughly. Apply the after color Freerange.

Service tone on tone : mix the contents of the vial (60 ml) with a part of the Active Mask B (60 ml), to make a light shampoo (we recommend Gentle Bath), remove excess water with a towel and apply the product in the usual way. Leave on for 20-25 minutes and rinse thoroughly. Apply color Freerange post service.

box: 60 ml bottle in box 3 pcs
