search Revivre born EXENCE Aromatherapy 's new line of professional products for the resolution of the blemishes of the scalp. Natural formulations, created with care and dermatologically tested. The laboratories of research and development Revivre are always careful to create effective formulations and enjoyable to use, in fact EXENCE Aromatherapy treatments exploit the many characteristics of essential oils by removing blemishes and leading you through a sensory journey of serenity and inner peace.

ESSENTIAL OILS and REVIVRE

Essential oils are a little treasure of nature. They are produced in very low concentrations and are a true concentrate of virtue. Each blend of essential oils Revivre was created to give the best results in the treatment of scalp, evoking pleasant sensory emotions. Vitamins, natural extracts and trace elements are the other key components of the line Exence. Today surfactants are even more delicate. In the shampoo essential oils are microencapsulated within the new tensiattivi, preserving them and making them available only during the application in the skin. EXENCE Aromatherapy : a series of comprehensive treatments that offer tailored solutions depending on the requirement specification of the hair divided into five different programs.
