STIMULATING COMPLEX stimulating and reactivating follicle cell

For more than 15 years TricoArt is alongside the hairdressers, cosmetics bio-natural, with emphasis on theoretical and applied trichology, devoting himself to creating products for those who like to take care of their hair in a completely natural way. For researchers TricoArt the true beauty of a man or a woman is in her hair, which must be strong and healthy. Created then concrete answers to every need, developing over time a number of product lines to suit all hair types and the last line was born is STIMULATING COMPLEX: innovative treatment that promotes hair growth allowing the functioning of stem cells. Awaken slumbering bulbs, also ridensificando hair with a daily treatment for at least three months. For hair more resilient and viable, and to stop the fall.

Contains:

- Arginine
- Plant stem cells
- Essential oils
