PININ CREATING SCISSORS

design and project

Thanks to the experience matured in more than half a century and still work for the 90% manually, PININ is able to create lines and custom items design and, special treatments, with the utmost sophistication and attention to detail. The company is pleased to put its expertise at your disposal to solve any problem.

CARBON TREATMENT: DLC COATING

- Union of beauty and durability
- carbon treatment applicable on any model PININ
- biocompatible: suitable for allergy sufferers

The DLC is a carbon based coating that confers greater resistance and compactness to the scissors. One of the very important characteristics of this treatment is the biocompatibility making scissors PININ still safer and tolerated by those who suffer from allergies. The phobic PININ will be covered by an elegant and precious black and strong as diamond. Treatment is available on any model.
