WIGS

The workshop produces a wide range of wigs look surprisingly natural. Customers may want a wig for a sudden change of look at an upcoming event, or their choice can result from a temporary or permanent hair loss. Everyone is guaranteed the necessary time to make the right choice, professionalism and discretion.

STRANDS

Easy to apply with discrete mini -clips, the strands are an alternative to removable extensions. The fibers used perfectly mimic the natural hair and are easy to clean and maintain, even after use.
