### HAIRDRESSING SCISSORS

The scissors are an essential working tool for the stylist hairdresser, so that does not yield anything, not even on loan, colleague or employees.

The pride of the articles dealt with CO.IN., is the SHEAR JEWELRY METEORITE, only for the materials with which it is built, based on a meteorite bar, which makes it a lifetime guarantee : you can sharpen the blades without compromising wear and maintaining their long- held wire.

Also unique in its form, for the study of balance and ergonomics of use, for finishing in the damask.

Its uniqueness makes it an object coveted by professionals and collectors, and makes it an exclusive and prestigious awards in international competitions.

#### MATERIAL

The initial idea was to create a unique, almost magical, that combined an intrinsic value to an equally important symbolic meaning, such as a goal, then thought for only three artists in the world that will prove worthy of this award. Thus, the SHEAR JEWELRY METEORITE was carried out in 3 pieces in which, thanks to the skill of the master forgers Italian, damask steel joined to the matter coming from the sky. Items with roots far back in time, with the same material as forged swords of the ancient knights, objects with deep roots in the space to embrace because the metal foil is a meteorite.

#### DAMASCUS DESIGN

A knight was his sword and his forge is a slow process and magical.

In faraway Damascus, at the time of the Crusaders and tournaments, the long tradition of master gunsmiths gave birth to objects of immense value : they were built in damascus steel.

Legend has it that a sword made of damask steel could cut the rock, be rolled up around a man and back straight, without ever losing the cutting edge.

A material that reconcile flexibility and toughness due to the different absorption of carbon, mainly concentrated at the edge of the sword, keeping its central core relatively soft.

For a long time, since 1300, there had been no news of this process, so that we mourned his loss, but wrongly.

**LOCK BOX TOP HAIRSTYLISTS**

The best case designed specifically for 3 pieces of SCISSORS JEWELRY METEORITE. An aluminum block to accommodate in its hollow seat laser these exclusive items. The incision TOP HAIRSTYLISTS, on the two sides of the box, the bottom of the block and the top of the lid, it enhances the gloss / satin of the material in which it is made.
